SRE-Majeed College

Matriculation

New Century School

WORK EXPERIENCE

Code Avenue, Karachi **Oct 2023 - Present**

Software Engineer

- *Responsibilities:* Development, optimization, and maintenance of web applications. Collaborated with backend engineers, UI/UX designers, and product stakeholders to deliver seamless and responsive user interfaces.
- *Projects:*

Mobrage

- Built a B2C web platform for car mechanic services with user and service provider interfaces, including features like authentication, chat, bookings, and payments.
- Developed dynamic role switching, business profiles, and integrated a responsive admin panel for managing users, services, and workflows.
- Collaborated closely with backend engineers and designers to deliver a seamless, mobile-friendly user experience.

Guyana

- Worked on the Master App and Prison Management modules for a government system handling operations like inmate admissions, discharges, and health records.

- Built dynamic, role-based forms with complex conditional logic to support multi-user workflows and data accuracy.
- Ensured secure and efficient access through role-based permissions, allowing multiple user types to interact with the application as per their responsibilities.

Sentinel

- Developed a role-based security guard management platform with dynamic UI and feature access for 4 distinct user roles.
- Implemented real-time one-on-one chat using sockets, along with secure authentication and shift scheduling.
- Built modules for user management, attendance tracking, and other operational workflows to streamline day-to-day activities.

E Guard

- Developed a responsive admin panel to manage users, handle emergency requests, display dashboards, and visualize data through interactive graphs.

TechiBits, Karachi
Internship

Apr 2023 - Jun 2023

- *Responsibilities:* Development, optimization, and maintenance of web applications.
- *Project:*

Learning Management System

- Designed and developed the student dashboard UI using Vue.js, focusing on a clean and user-friendly experience.
- Built features for student activity tracking and performance reporting to support effective learning management.

Pak Brunei Ltd, Karachi
Internship

Feb 2023 - Feb 2023

- *Responsibilities:* Development, optimization, and maintenance of web applications.
- *Project:*

SWWAB Trust Website

- Built a fully static website using HTML, CSS, and vanilla JavaScript with custom JSON data integration, including gallery features and trust holder records display.
